# WHOLESALE TRADE LIST

FALL 1927 - SPRING 1928

GROWERS AND

WHOLESALE DEALERS IN

FOREST AND SHADE TREES

AND ORNAMENTAL SHRUBS

CARLOAD ORDERS SOLICITED

FOREST NURSERY CO., Inc.

BOYD BROTHERS

McMINNVILLE, TENNESSEE

### INTRODUCTION.

In 1887 the father of the present management of the Forest Nursery Company started operation of a nursery which has been in continuous operation since that time. Today the Forest Nursery Company, Inc., operating over 300 acres planted in shrubs, tree seedlings and evergreens and serving many of those in the trade in practically every state in the Union is the result of the labors of the founder—J. H. H. Boyd.

Having been in close touch with those in the trade for so long it seems that it is unnecessary to give a brief history here, as so many Nurserymen over the country, not only have bought our products for a great many years, but, having known us personally for so long that it seems an introduction here is superfluous. In this our fortieth year it behooves us to express our sincere appreciation to our friends and customers for their loyal support. It has been our greatest desire to serve you well.

Never before have we been so well equipped to handle your orders. We have better storage, larger assortments, highest quality and a strong determination to please you.

Many have placed advance orders with us for shipment Fall 1927 and Spring 1928. To those who are interested in the stock listed in this Trade List, we hope to receive your early orders. We invite correspondence whenever we may be of service to you.

Sincerely,

FOREST NURSERY COMPANY, INC.

---

### TERMS AND CONDITIONS OF SALE

Unless instructions are given as to address and mode of shipment, we will forward according to our best judgment.

Prices herein listed are net.

Boxing or baling and packing extra at cost.

When payment accompanies order, no charge will be made for boxing and packing. No charge will be made for packing car-lot orders in bulk.

All stock sold f. o. b. cars McMinnville, Tennessee.

All orders accepted and all shipments made with the agreement and understanding between the purchaser and ourselves that in case of delays or our inability to ship on account of weather conditions, strikes, drought, fire, frost, hail, accident prior sale of stock, stock not making usual growth or for any cause beyond our control, that we will not be liable or held responsible for any damage.

All shipments at purchaser's risk.

Claims to receive consideration must be made within ten days after receipt of goods. Claims for stock damaged or lost in transit should be made to your local transportation agent.

All accounts due thirty days net except wholesale nurserymen who have established credit with us and in this event all fall accounts are due December 1 of same year. All Spring accounts are due June 1 of same year. Interest will be charged on accounts after due dates.

Guarantee: We are very careful to keep each variety true to name as labeled, and are ready at any time to replace, on proper proof, any that may prove otherwise, free of charge, or refund the amount paid, but it is mutually agreed between the purchaser and ourselves that we shall at no time be liable for an amount greater than the original purchase price.

This list cancels all previous quotations.

2 to 3 feet (tr) 2-yr.....	8.00	75.00

Note—The above varieties of 2-year, transplanted Altheas are good stocky plants that got mixed in our storage and we were unable to separate. Any one desiring mixed colors would make a good buy to get some of these.

**SEEDLING ALTHEA, or Rose of Sharon.**

These are grand flowering shrubs. There is a wide range of color, and not a day from the middle of July until September—a time when so few other shrubs are in bloom—that Altheas are not aglow with flowers. They have no

insect enemies, grow well anywhere, are splendidly suited for shrubby borders, for colony plantings and hedges. The planter who uses them freely makes no mistake.

**ZANTHORHIZA. Yellowroot. (See Collected Seedlings.)****FOREST TREE SEEDLINGS (COLLECTED)**

This Stock is not Nursery grown but is woods grown collected from the mountains and Forests.

Note—Most collected seedlings, such as Maples and some others, except large sizes, are crooked near the ground and should be cut back to crown before planting. They grow up straight, smooth and much faster and quicker than when planted without cutting back. We cut back all seedlings to crown before transplanting.

Woods grown or collected stock is not to be classed with Nursery grown or cultivated plants. You will notice that in this catalogue, as has been our rule that the Nursery Grown and Collected stock are listed separately and under their respective heading. We seldom recommend Collected Stock, however many of our customers advise us that with Collected Stock they have obtained satisfactory results. The prices are certainly attractive. We frankly state that we believe that the Nursery Grown Stock is well worth the difference in price. Many of the varieties we offer in Collected Stock are items that frequently become short in Nursery Grown, hence the Collected list, but do not expect the Collected Stock to have as good root system, be as well developed or live as well as Nursery Grown. Our prices are made after careful study and we believe them to be, not only in line with the trade generally, but that we have a quality well worth the price.
